SQL DROP Database

SQL DROP DATABASE statement to drop the existing database.

Syntax

```
DROP DATABASE database_name;
```

Example

```
SQL> DROP DATABASE user_db;
```

Now you can again execute SHOW DATABASE statement. `user_db` database deleted.

```
SQL> SHOW DATABASES;

+--------------------+
| Database           |
+--------------------+
| information_schema |
| scott              |
| demodb             |
+--------------------+
3 rows in set (0.00 sec)
```
